STUDENT SEARCH PARTICIPATION

Under the terms of the CFA contract and the SDSU Academic Policy File, Temporary faculty, students, and staff may only serve in advisory or support roles and cannot be granted Interfolio access or participate in the official vote to recommend hire—under the contract only tenured and tenure-track faculty member are eligible to do so.

Deans may work with their search chairs to establish some or all of the following opportunities for participation:

- Attendance at search committee meetings
- Participation in committee discussion of candidates
- Attendance at job talks and teaching demonstrations
- Participation in interviews, including asking questions of candidates
- Participation at candidate social events and all aspects of the “campus visit”
• Read-only access to candidate dossier materials downloaded from Interfolio and provided via Google Drive or similar
• Development of hiring recommendations to provide to the committee and/or Dean

MANAGING IMPLICIT BIAS AND ACHIEVING POOL PROPORTIONALITY

Search committees bear an extraordinary responsibility for ensuring that the university realizes its commitments to diversity and inclusion through the hiring process and should seek to fulfill their responsibility through the following means:

• All search committee members should undergo implicit bias training. The Professors of Equity have developed an online, self-paced workshop on *Equity, Implicit Bias, and Microaggressions* that introduces these concepts. Faculty and staff can enroll at any point during the semester and it should take approximately 1.5-2 hours (90-120 min) to complete; however, in order to ensure the Professors of Equity can respond to submissions in a timely manner, you should complete all modules within two weeks of enrolling.

• Search committees should review their applicant pools to assess whether they have succeeded in building a pool at least as diverse as pool of doctorate holders in the field, using this pool proportionality worksheet. Please contact Campus Diversity (diversity@sdsu.edu) to request the pool reports or if you have any questions regarding the worksheet.

• Search committees should take care to ensure that all candidates selected for campus visits have an opportunity to meet with a college diversity liaison, one of the Professors of Equity, or another representative from Campus Diversity.

BUILDING ON INCLUSIVE EXCELLENCE

The *Building on Inclusive Excellence (BIE)* faculty hiring program strives to diversify the faculty by focusing tenure-track faculty searches on candidates who meet criteria aligned with SDSU’s commitment to diversity, equity and inclusion.

The criteria do not require the candidate to identify as part of an underrepresented population. Instead the criteria are designed to assess the candidate’s demonstrated commitment to serving and/or addressing issues related to underrepresented populations. (For the purposes of the BIE, underrepresented populations refer to the following groups: African-American, Latinx, Native American, Southeast Asian, and Pacific Islander, groups of varying abilities, women in the sciences, technology, engineering, and mathematics, or any other group that has been documented as underrepresented in the candidate’s academic discipline.)

Evidence should indicate meaningful experience or connection to criteria, rather than isolated or ad hoc involvement (e.g., a record of mentoring several underrepresented students over a period of time vs. advising one underrepresented student on one project; leadership or discussion of specific activities in a professional organization vs. just being a member; research that specifically explores and illuminates the experiences of underrepresented populations vs. analysis that includes race and gender as control variables or simply reports results by demographic group without an accompanying emphasis).

The chart below provides examples of the most common forms of evidence and artifacts that can be used to show that a candidate meets a given criterion.
Candidates must meet two (2) or more (some colleges may require a minimum of three—please check your College Diversity Plan) of the eight (8) criteria and the department should provide unique evidence for each criterion met.

BIE SCREENING PROCESS GUIDELINES

1. FASS ensures that BIE screeners (designated representatives from Tenure-Track Planning Committee, DEI Committee, and CDO, plus AVPFASS) are given EEO officer status in Interfolio.

2. Search informs FASS when BIE docs are uploaded.

3. FASS notifies screeners that finalists are available for review.

4. Screeners log in to Interfolio, review finalist documents, and tag candidate as “BIE approved finalist” after verifying that candidates meet 2/8 BIE criteria.
   - Screeners login, go to "position details," scroll down to internal documents, locate the "BIE SHORTLIST CANDIDATE FORMS" uploaded by the search committee, review, and use the "tag feature" and label each shortlist approved candidate as a "BIE approved finalist."
   - Guide for creating and adding tags to applicants.
   - Screeners should verify that candidate meets any two of the eight criteria. A single experience, activity, or attribute may not count for more than one of the criteria.
   - An identity attribute—including status as a foreign faculty member—may not be considered in evaluation of candidates by the criteria.
   - Screeners should recuse themselves from evaluation of any department where they have a conflict of interest (faculty member in the department or partner / spouse faculty member in the department).

5. SACD / CDO runs daily report of tagged finalists and notifies chair, Dean, and Provost once candidates receive three tags.

6. If a candidate does not receive approval, the Office of Faculty and Staff Diversity will provide the department with the explanation of why the reviewers believe the candidate does not meet at least 2 (or 3) of the 8 criteria. The department is given an opportunity to provide additional explanation if they believe it may sway the reviewers. That is shared with the BIE reviewers and they are given an opportunity to change their vote.

7. If the candidate still does not receive approval, the department may put forward a different candidate (i.e., someone else from their shortlist who received first-round interviews), or they may choose to proceed with just the remaining finalists.

8. If a department wishes to appeal the decision of the reviewers, they may do so by requesting a review by the Chief Diversity Officer and the Provost. In this request, the department must provide information on their search, including their posted ad language, information on where they posted their ad, data from their pool proportionality assessment, and interview questions. If both the CDO and the Provost agree that the department has taken sufficient steps to attract an applicant pool that reflects the available pool of degree holders, and to mitigate bias during the interview process, the appeal will be granted.
